Dear SEA Quantathon 2026 Finalists: Team 14:

- Le Duc Truyen
Nguyen Xuan Trieu
Dinh Nhu Duc

Congratulations once again on advancing to the finalist stage of SEA Quantathon 2026!

Your team's proposal has successfully passed the evaluation criteria and has been selected to move forward in the competition. We are excited to welcome you to the next phase and look forward to seeing your ideas develop into impactful solutions.

Important Deadline

Please complete the Finalist Information Form by 13 June 2026, 10:00 PM (GMT+7):

<https://forms.gle/RURhrgSSQi6a677b8>

Before completing the form, please take note of the following:

- Only **ONE submission per team** is required.
- The form must be completed by the **Team Leader** on behalf of the entire team.
- The **Team Name** must include the team number assigned by the Organizing Committee.
- The **Team Name** and **Project Title** provided in this form will be considered the official information used by the Organizing Committee for all event-related purposes, including event materials, publicity, and competition records.
- All team members intending to participate in the Final Round must be included in this form. Any individual whose information is not included in the submission will be considered as not attending the event.
- Passport copies (or National ID Cards for Vietnamese participants) are required for all participating team members.
- Please ensure that all information provided is accurate, complete, and consistent.

If there are items that cannot yet be completed, please provide all currently available information and indicate any missing details in the appropriate sections of the form.

Your Approved Proposal

Proposal Title: "TEAM 14 - Economy & Technology: Innovation & Infrastructure, Environment & Energy - Affordable & Clean Energy"

Summary: Southeast Asia's electricity demand is rising rapidly while renewable generation adds weather-driven volatility to the grid. Utilities now face tighter operations, congestion, and cascading-failure risks, but today's grid analytics are often too slow for real-time decisions. We aim to make power-system simulation, monitoring, and optimization faster and more scalable.

The proposal title above corresponds to the idea approved by the review committee and selected to advance to the Final Round of SEA Quantathon 2026.

While your team may refine and improve the solution throughout the competition, the core idea should remain aligned with the approved proposal. As part of the finalist information submission, your team will also have the opportunity to update and finalize your Team Name, Solution Name, Solution General Title, and Solution Description to better reflect your team's vision and proposed solution.

Important Notes

Team Composition

Please review the team members listed in your form and ensure all information is correct.

Based on your proposal, we deemed your team skilled enough with three members, so we didn't add new members.

Travel Support Information

The organizing team will provide the following support for finalists attending SEA Quantathon 2026:

- Round-trip international airfare support of up to **USD 300 per participant**
- Flight tickets will be booked directly by the organizing team
- If travel costs exceed the supported amount, additional coordination will be required with the participant
- Domestic transportation within Vietnam will be arranged by the organizers
- Domestic segments are expected to primarily utilize train transportation
- Accommodation will be provided during the hackathon week
- Accommodation will generally be arranged on a double-room occupancy basis
- Meals will be provided during the official program

Please note that **visa costs and visa application fees are not covered** and remain the responsibility of participants.

Participants should take note of the following key dates and the tentative timeline of events:

- Welcome Dinner: **23 July 2026**
- Closing Dinner: **28 July 2026**

Additional travel, accommodation, and program details will be shared in future communications.

Thank you for your cooperation and congratulations once again on becoming a SEA Quantathon 2026 finalist.

We look forward to welcoming you to Gia Lai and seeing your ideas come to life during the competition.

Best regards,

Jabez Ayson

On behalf of the SEA Quantathon 2026 Organizing Committee
